- [Profit Margin: 16.8%](#)

Product & Market Analysis

Sum of order_value_EUR by country

Product & Market Insights

- **Clothing** is the highest-performing product category, generating the largest share of total revenue.
- **Games, Appliances, and Electronics** form a strong secondary revenue group, indicating diversified customer demand across multiple product lines.
- **Portugal, France, and Sweden** are the company's strongest markets, contributing a significant portion of overall sales.
- Revenue is concentrated among a small number of categories and countries, highlighting key growth drivers for the business.
- Lower-performing categories such as **Accessories** and **Other** may require targeted marketing initiatives or portfolio review to improve performance.
- Future expansion efforts should focus on strengthening presence in high-performing markets while identifying opportunities in underpenetrated countries.

Final Business Insights & Recommendations

Key Findings

- Deluxe generated **€113.36M** in revenue and **€18.99M** in profit during the analysis period, maintaining a healthy profit margin.
- **Clothing** emerged as the highest revenue-generating product category, followed by Games, Appliances, and Electronics.
- **Portugal, France, and Sweden** were identified as the strongest markets, contributing a significant share of overall sales.
- Customer purchases are heavily concentrated on **PC devices**, which account for approximately **79% of total revenue**, while Mobile and Tablet contribute considerably less.
- Sales performance varies significantly across managers. **Celine Tumasian, Othello Bowes**, and **Maxie Marrow** generated the highest revenue contributions.
- Revenue patterns indicate strong sales activity throughout the period, with several high-value sales peaks observed during 2019 and 2020.

Recommendations

- Continue investing in high-performing categories such as Clothing, Games, and Electronics to maximize revenue growth.
- Strengthen marketing and customer acquisition efforts in top-performing countries while exploring growth opportunities in underperforming markets.
- Optimize the website and purchasing experience for PC users, while identifying strategies to increase Mobile and Tablet conversions.
- Analyze the sales practices of top-performing managers and replicate successful approaches across the broader sales team.

Review low-performing categories and markets to determine whether targeted promotions or product portfolio adjustments are required.
